CEP Certification, LLC Announces July 2010 Certified Electrical Professionals™ *Certification Recognizes Education, Training, Experience and Professionalism in Electrical Distribution*

ST. LOUIS... CEP Certification, LLC a limited liability corporation established by the National Association of Electrical Distributors (NAED) announces the July 2010 Certified Electrical Professional – Inside Sales™ (CEP – IS™) and Certified Electrical Professional – Outside Sales™ (CEP – OS™) certificants.

CEP is a certification program for distributors, manufacturers and others in the electrical distribution channel. Certification gives the holder credibility in their industry and increases the professionalism of the industry as a whole. CEP certification identifies that the holder has demonstrated expertise in areas such as product knowledge, customer service, sales skills, and other skills giving them added credibility in the electrical industry.

The next set of test dates will be January 10-21, 2011, interested candidates should begin preparing now. For suggested courses, FAQs, candidate guides, sample exam questions, self assessments, and other helpful materials, visit the CEP home page at www.naed-cep.org. Or contact NAED Customer Service at certification@naed.org or toll-free at (888) 791-2512.

CEP Certification, LLC (CEP Certification) is a limited liability corporation established by the National Association of Electrical Distributors (NAED) to develop and administer certification and recertification processes for the purpose of designating those individuals who have met CEP Certification professional knowledge standards. The mission of CEP Certification is to enhance the performance of individuals working in the electrical distribution industry by setting standards for the performance of industry job roles and assessing individuals against these standards.

[NAED](http://www.naed.org) is the trade association for the \$70+ billion electrical distribution industry. Through networking, education, research, and benchmarking, NAED helps electrical distributors increase profitability and improve the channel. NAED's membership operates in approximately 4,400 locations internationally.
