

# Supply Chain Scorecard: Implementation Pledge

The Recommended Supply Chain Scorecard is an NAED initiative to create a sustainable competitive advantage for the electrical distribution channel.

I intend to implement the Recommended Industry Vocabulary: *Supply Chain Scorecard* and Recommended Best Practices: *Supply Chain Scorecard* in my company to make the process of evaluating supply chain performance more efficient, grow sales, and lower the costs of doing business together while delivering more value to end-customers.

I also understand that I can utilize the "Menu" of possible measures as a reference point to develop a scorecard customized to my business; the key point is using the Recommended Industry Vocabulary: *Supply Chain Scorecard* for the definitions of the measures I select.
